OHIO'S LEGISLATURE, ADJOURNMENT OF THE FIFTY-SIXTH GENERAL ASSEMBLY.

The Gavel Falls After Complimentary Speeches and Vote of Thanks—Resumption of the Work Accomplished in Framing Legal Enactments.

COLUMBUS, May 5.—The closing hour of the session which was spent in mutual admiration speeches in which Republicans and Democrats participated. Speeches were made by Messrs. Brunner, Brown, Myers, Little, Bayard, and Speaker Marsh.

The house adopted a vote of thanks to Speaker Marsh, Speaker of the Senate, and all officers and clerks of the house, and at 11:10 the speaker's gavel fell and the legislature was declared adjourned sine die.

During the session just closed there were several bills introduced, largely of a purely vicious character, and probably more than the usual number of purely vicious ones. Embracing the bills that came over from the first session there were in round numbers 700 bills considered in the house, 300 in the senate, and about of them enacted into laws, each measure passing nearly a proportionate number of the bills up for consideration.

Of those taking the form of law, fully sixty per cent were purely local in their application and of no interest except to the people to whom they apply.

Of the bills not local in their character nearly all the rest were revisionary or supplementary to the revised statutes. Some of the changes are purely clerical or verbal, others, however, are the remainder changes that the law as it stood at the opening of the session.

Altogether there was not more than a score of laws passed which will prove of general interest to the citizens of the whole state, and none of them are very radical. The act to clearly define the powers, duty and jurisdiction of the circuit court was deemed necessary and was passed with general approbation.

Brown's Patent Bitters is the best tonic, is held by many both in and out of the legislature to be the most important law passed.

Others hold that the O'Neil bill, which passed the house under a suspension of the rules and became a law on Saturday, breaking the power of the insurance companies to arbitrate to fix the rate of insurance, will rank among the most important acts of the legislature.

Mooney's bill, pulling the teeth of an anti-slavery charter, will have a benefit effect in all the larger cities, where a class of men have been systematically robbing the poor and unfortunate.

The Schulte bill, distributing the rolling stock of the state property among the companies proportionately and the counties through which the lines run for purposes of taxation, is said to be just to taxpayers and to railroad companies.

Mr. Turner of Dayton is the author of two laws, equally important in their bearing, that require inquiry of their respective clerks of courts to furnish the judges of elections with lists of all persons having served on juries within two years. This bill should not be placed in the annual or box, and the second act making the possession of burglar tools a felony in all parts of the state.

The Matthews bill to regulate the manufacture and sale of dynamite will also rank among the important enactments, as will the bill, making it a felony to give or receive bribes for votes or "influence" at the primaries or at the polls.

The bill enacting the miners and giving the miners the full rights of miners, and amends the miners' law so that miners meet with warm approval among the labor element. Labor advocates say that the mine inspection, the shop inspection, the anti-slavery charter, the Ryan labor tribunal and other laws passed by the legislature are the result of much needed reform. The Levering bill, providing for all executions to take place in the penitentiary, creates a wide diversity of opinion.

The only mistake in regard to the act providing for the registration of voters in Cleveland and Cincinnati, in the opinion of the ablest members of the legislature and others, was that it was not made general, or at least made to apply to all cities of 10,000 population and over.

The most radical act passed was that to make the third sentence of a convict to the penitentiary one for life, regardless of the character of his offense. No other legislative body ever passed such a law.

PLYMOUTH'S EPIDEMIC

Regular Typhoid Fever and Caused by An Impure Water Supply.

WILKESBROOK, Pa., May 5.—The epidemic in Plymouth still holds its own. A correspondent conversed with a number of physicians, and they report several fresh cases, but say that they are not so virulent a nature as formerly.

The fever seems to be on the wane, but during the coming week there will be many deaths. Many of the wealthier residents have removed their families to the town. In several cases the removal has been sudden, and death has followed after their departure.

Dr. Davis, a leading physician of this city who is attending a number of patients in Plymouth, pronounces the disease regular typhoid.

He believes the cause of the epidemic can be found in the water supply, which has been contaminated by cesspools or drains. The municipal authorities are about to make a searching examination along the line of the water supply in the hope of finding some new cause.

Dr. Smith, one of the leading physicians of the place, in a conversation stated that the disease was on the increase and was spreading rapidly, and that it had reached neighboring hamlets. He said:

"I consider that there will be many more deaths."

"Do you think there will be many more deaths?" he asked.

"Do, do," he replied. "The second stage of this disease, when the typhoid symptoms become manifest, is the most deadly, and a majority of those in this stage has hardly been reached. I believe that during the coming week the death roll will be frightful."

SMITH'S KIDNEY TONIC—TRY IT.

and I should not be surprised if ten or twelve died every day."

"What is the disease?"

"It begins with that kind of fever which has been generally designated as malarial, marsh or lake fever, but gradually the typhoid symptoms develop and in every case it ends in regular typhoid fever."

"Has this real cause been discovered?"

"I think it has. The disease is due mainly to the water and decaying animal and vegetable matter, but I am also inclined to think that it is in part due to the drinking water. The water must be say, impure, but, whether that is true or not, reservoirs were examined and they would be found full of decaying vegetation. The most alarming feature about the epidemic at present, however, is its rapid spread among surrounding towns. There are coke, fifty at Avondale, fifty at Larkville, and a few in nearly every one of the small villages round about. Kingston, just across the river from this city, has several cases of a similar nature."

LOOKS VERY LIKE PEACE.

Russia and England Agree to Negotiate Other Foreign News.

LONDON, May 5.—In the house of Lord Granville, secretary for foreign affairs, said that England and Russia had reached an agreement on the subject of the Manchurian frontier question with Russia.

Lord Granville further stated that the coming negotiations will be carried on in London, and that all the preliminary details have been arranged in view of an early meeting.

The government has sent an order to Dover to cease chartering ships of small port for transportation service. This is believed to foreshadow the stoppage of all war

preparations.

THE CHINESE KNOW THE BEAR'S TACTICS.

LONDON, May 5.—A report from Shanghai says that the dispute between the Chinese and Russian governments over the Manchurian frontier question is assuming alarming proportions.

The Chinese commissioners approached to meet the Russian commissioners at the head of the Manchurian frontier, asking off the frontier question and definitely fixing on a dividing line between Russia and the Chinese possessions in Asia, before waiting the arrival of the Russian committee.

Both sides are agreed to meet at Harbin, but the Chinese officials are indifferent at this, openly accusing Russia of acting in bad faith.

They assert that the same cause pursued by the Chinese delegation is the same in England in regard to the Russo-Anglian frontier.

The Chinese government will insist that the Russian committee be given a week to consider the arrangement.

In Illinois, Iowa, Minnesota and Wisconsin unseasonable weather has retarded farm work. The acreage of spring wheat in these States will suffer a decrease of fully 15 per cent.

A DISPATCH from Washington to the Louisville Evening Times announces that the President has appointed Capt. James Blackburn Collector of Internal Revenue for this district. The selection of Capt. Blackburn for this important position is as good a one as could have been made and will be received with satisfaction by the Democracy in this part of the district. An efficient administration of revenue affairs on strictly business principles may be expected.

The last issue of Bradstreet's, which appeared on Saturday last, reports a moderate improvement in the retail business of the East in consequence of the warmer weather. There is also a better feeling in trade circles consequent upon the supposed advantage this country will derive from a European war. In industrial lines there is no better outlook. The small strikes in leading industries are very large in the aggregate. Labor is more completely organized and is demanding an increase of wages. What peace there is, is only temporary. The decreased acreage and the damage to Western crops indicate a shorter yield than last year.

The Boston Globe says: "President Cleveland was elected by nearly five millions of Democrats, and we firmly believe that he understands and appreciates that fact. They expect him to give the country a clean and honest administration, and he evidently means to do just that, nothing more, nothing less. The Democratic party desired him to move slowly in the matter of changes, as they have had no wish for a revolution or violent change, which would disturb and alarm the business men of the country. Consequently the party has been patient and willing to allow time for a thorough examination of details and a mastery of all the questions affecting the administration."

The question of the ownership of a medical prescription is one which has often occasioned controversy. When a man consults a physician and obtains from him a prescription for the compounding of medicine by a druggist, having paid for the recipe he naturally supposes the paper to be his individual property. It not uncommonly happens, however, that the druggist, having put up and delivered the medicine, insists upon retaining the prescription, sometimes refusing, if not of an obliging temper, even to give the customer a copy of it. It may be interesting to know that the question of such ownership has received judicial decision.

The Supreme Courts of New York and Massachusetts have adjudicated upon it substantially as follows: That the physician, in prescribing, gives the patient a written order for drugs, and their delivery terminates the operation. The druggist may, on his own responsibility, renew the drugs, for he is a merchant, and has a right to sell drugs in any shape. He is not bound to give a copy of the prescription, nor even to keep it, though he usually retains it as a protection in case of error on the part of doctors or patients.

THE CINCINNATI DOG SHOW.

Grand Preparations for the Big Opening Day.

CINCINNATI, May 5.—Preparations are being pushed forward with all haste for the grand dog show to be held on the grounds of the Cincinnati Kennel Club. This show will be by all odds the finest and most complete ever given in America. Over 500 entries have been made, and among them is included every kennel of note on this side of the Atlantic. Many of the most celebrated kennels from some of the most celebrated kennels in England and Ireland. This show, coming as it does right on the heels of the New York exhibition, which has just closed, makes the greatest interest, and comes right in the line of the exhibition circuit, and every dog of note entered in the New York show will be shipped direct to Cincinnati, as well as other fine canines from all parts of the country and world.

The competition in each hall is a most excellent place for such an exhibition, and permits of the high steppers in the canine world being shown to their best advantage. The show last spring in Melodeon Hall was a good one, but the present exhibition will eclipses it in every particular.

The center floor space is raised in and set apart for the ring in which the famous animals are to be exhibited and these fine points shall be observed. The floor will be laid with netting affording an obstructed view of the place. Outside this, and with an ally between, is a double row of kennels, numbering nearly two hundred and seventy separate compartments, for smaller animals. A room of 40x60 feet will be provided, without partitions, where the mastiffs and larger dogs will be charged for exhibition.

Stephen Elkins Speaks.

NEW YORK, May 5.—Stephen B. Elkins, manager of Mr. Blaine's campaign, is quoted as saying: "I am compelled to say that I think the Convention of the Civil War is to be better than what has been told me. The man I spent dollars and time to elect, still I hate a democrat. Blaine's chances are better to-day for election in 1888 than they were the day after the convention at Chicago for success in 1884."

WHAT WILL TO-MORROW Bring?
Don't know. Either clear weather or cloudy. Either storm or sunshine. Either sickness or health, or else, perhaps, a muddling condition half way between one and the other. If you are ailing and poorly to-day, you may be enjoying relief to-morrow, if you will only take Brown's Iron Bitters. If you have this prince of tonics in the house, look joyfully and hopefully for the coming of the morrow. It cures neuralgia, headache, dyspepsia, weakness, etc.

SCHOOL NOTES.

PUBLIC SCHOOL NO. 3—MAYSVILLE.

Census report, 322; pupils on roll, one hundred and forty-four; boys, 182; girls, 48; first assistant, 37; second assistant, 53; total, 138. The average attendance for the same month, principal's room, 40; first assistant's, 34; second assistant's, 36; total, 110. There are 43 pupils in the school, 22 boys and 21 girls, and 34 per cent. in actual attendance.

The principal's room is 34'x18 with 10 feet to ceiling and is quite comfortable. The furniture consists of 31 desks, teachers desk, recitation seat, clock, and small globe, all painted by Professor Williams. He had a round ball of wood, of suitable size, turned at the furniture shop and cut the maps of the two hemispheres from the geography and pasted them on the ball, the result was a neat model of the world. He also made a small model on a small wire frame and are ready to illustrate the shape and motion of the earth to your class. This is a strong hint to teachers who have no globe and appeals to their enterprise and ingenuity. The pupils of this room are grades E, F, G, and H, with an average age of 12 years, and a 24 per cent. in actual attendance.

Professor B. F. Williams is teaching his eighteen year old in the Maysville public school. He is as earnest, hard working, teacher as ever I have seen. He keeps up with educational progress. His arrangement of examination papers at the January review might be studied with advantage. We call special attention to the work of Master Williams.—School

The first assistant's room is 28'x18 with 9 feet to ceiling. There are twenty-six desks, but some of these are broken and need attention. There are also 3 blackboards, teacher's desk and recitation seat.

The pupilage of this room consists of grades C and D, with an average of seven and four-fifth years. Miss Eva Toup is teaching her first year in the city schools in this room, though she has taught two years in the country. Her room is well fitted for her duties but labor meets some difficulties, not the least of which is the trouble to have paper for the written work, of proper size and quality. So far she has not been able to get the method of recitation well enough to give service both parents and the school board of its utility that teachers will be entirely relieved of all embarrassment of this kind.

Second assistant's room. This is 27'x17 with 9 feet to ceiling. The furniture consists of 17 feet of blackboard, 26 desks, teachers desk, recitation seat and reading chart. The pupils are grades A and B, with an average age of seven and one-half years. Miss Eva Toup has not been from school. Miss Sallie Burrows has been teaching this room for three years. She is thoroughly alive to the responsibility of her position and speaks with a decided command of language.

We have shown quite a number of letters which reflect credit on both teacher and pupil. All of them write in some form, either on their slates or paper, or both. Miss Burrows teaches the elementary sounds and exercises very great care in teaching reading. The discipline and tone of the school is first-class.

A Good Story.

Charley Thorne used to tell the following good one: "During a very bad performance in one of the inferior towns of New York State the audience in its entirety condescended to hiss with the exception of one man. At last the gentleman next to him said: 'Why don't you hiss? I am a good story teller.' He said, 'As I came in on a complimentary, but if they don't do better pretty soon, d-d if I don't go out and buy a ticket and join you!'

A MORMON MANIFESTO

PROTESTING AGAINST THE EFFORTS
TO SUPPRESS POLYGAMY.

The Latter Day Saints Defending Their
Faith—They Address a Declaration of
Grievances to the President and
People of the United States.

SALT LAKE CITY, Utah, May 5.—Meeting have been held throughout Utah, Idaho and Arizona at all the Mormon tabernacles, at which a declaration of grievances and protest which had been formulated at a general conference of the Mormon church, was read. The declaration is addressed to the president and the people of the United States. It begins by saying that as the people of the American citizenry are very dear to the people of Utah and their co-religionists in the neighboring states and territories are trampled upon, they believe it their imperative duty to protest against the gigantic evil which threatens not only their religious liberty but the liberty of every freeman. It then says:

"As to our religious faith, it is based upon evidence which to our minds is conclusive convictions not to be shaken by legislative enactments or judicial decisions, but which leaves the body, but it cannot convince the mind. To yield at the demand of the legislator or the judge the rights of conscience would prove us recreant to every duty we owe to God and man. The fundamental principle of our religion is that of immediate revelation from God. One of the doctrines so revealed is celestial or plural marriage, for which ostensibly we are stigmatized and harassed. This is a vital part of our religion, the decisions of courts to the contrary notwithstanding."

The declaration declares that the practice of polygamy as understood among the ecclesiastical system is a system of sanctity; but the latter day saints believe that the marriage is one which we properly solemnize exists in eternity. Every faithful woman in the church believes that in order to insure her salvation she must be sealed to God who could not be married to any other than a right, faithful man. It then says:

"Acting upon this belief, these alliances are formed, while on the earth, upon the principle that the man is not without the woman, nor the woman without the man in the Lord. They firmly believe that God has revealed this to them as a command. But while patriarchal marriage, as it is termed, is a part of their faith and practice, they have no objection to it if it is done lawfully. The equality of the sexes, if no other reason, would prevent this. It is a mistaken idea that our church favors the propagation of this doctrine, or seeks to establish it as a universal law. At the same time, they fully believe that women should be married, if two or three of them, as in the family of Abraham, Jacob, and others, become the wives of one man. Instead, therefore, of our forbidding marriage promoting sensual experience, we prohibit such practices if and, instead of being destructive to the family relations, it is preservative of them."

Complaint is made that the commissioners appointed under the Edmunds law have assumed to themselves authority conferred upon them, and have exercised extraordinary in legal and arbitrary powers. On this point it says:

"The Edmunds act officially formulated commissioners and illegal exorbitant test oath, covering the civil life of the individual, and required each elector in the territory to take it before he could vote, and by their order the names of all persons who failed to take this oath were stricken from the voter list. They also compelled this test oath that it could not be taken by any person who had ever lived in polygamy, or who cohabitated with more than one woman in the marriage relation, but it could be, and was, taken by persons who cohabitated with more than one woman in the marriage relation, thus discrediting only Mormons and permitting non-Mormon violators of the law to register and vote."

It is further charged that they have grossly abused their authority in the appointment of registration officers, by selecting for such positions, whenever possible, only such persons as belong to the anti-Mormon faction. The declaration then says:

"The Edmunds act, which not only provides for the punishment of polygamy, but also cohabitation with more than one woman, whether in the marriage relation or outside, was made up to operate upon one class of people only—the Mormon race, yet of the non-Mormon class, who transgressed the law, the name is legion. The paramour of mistresses and harlots, secure from prosecution, walks the streets in open day. No officer of the law dares to drag his doge and shame and guilt before a judge and jury for investigation and punishment. But note the contrast. In Utah, Idaho, and Arizona it is considered it is made upon the Mormon people. Spotters and spies do their footsie. Delators thrust themselves into bed-chambers and watch at windows. Children are questioned upon the streets as to the names of their parents. Families are dragged before the commissioners of grand juries, and on pain of punishment for contempt are compelled to testify against their fathers and husbands. Modest women are made to answer shamefully indecent questions. Examples are not wanting to work up cases against their neighbors. Notorious disreputable characters are employed to spy into men's family relations." The declaration concluded with a protest against such treatment, and a request for the appointment by the president of a commission "to fairly and thoroughly investigate the Utah situation."

STRIKING AGAINST A RUMOR.

CLEVELAND, O., May 5.—Three hundred and sixty coal miners in the Conotton valley district have struck, and a general strike has been called by the miners of the Conotton and Tuscarawas valley districts. The men have been receiving seventy-five cents per ton, and the cut was to sixty cents. The owners claim that the miners will have to take sixty cents a ton or the mines will be closed.

THE RUN OF SHAD.

WASHINGTON, D. C., May 5.—The fish company people here encouraged over a winter just now to buy fish from the Ohio River and the Tennessee and Cumberland and Kentucky and Tennessee valleys. The men have been receiving seventy-five cents per ton, and the cut was to sixty cents. The owners claim that the miners will have to take sixty cents a ton or the mines will be closed.
